Security & Risk Teams
Get ahead of chaos with real-time, secure updates.

Communications & Exec Stakeholders
Keep leadership and external partners informed.

IT & Incident Responders
Trigger alerts alongside playbook execution, without delay.

How does it work?

When every second counts, ShadowHQ Notify ensures you can reach who you need—securely and without delay. Whether it's executives, employees, vendors, or regulators, Notify delivers the right message at the right time.

MULTI-CHANNEL DELIVERY
Reach users via email, SMS and automated voice calls, all off of the compromised network.

PREBUILT TEMPLATES
Deploy pre-approved messaging instantly. No delays.

CALL TREE ESCALATIONS
Auto-escalate messages across defined responder hierarchies.

IN-PLATFORM ACTIVATION
Launch alerts directly from ShadowHQ. No jumping between tools.

AUDIT-READY LOGGING
All notifications are tracked, timestamped and link to incidents.

PREPARE
Set up recipient groups, call trees and read-to-send templates.

TRIGGER
Launch Notify from the ShadowHQ dashboard or API.

DELIVER
Secure alerts hit every inbox, phone or device — securely out-of-band.

RESPOND
Tie notifications to live tasks, status updates and playbook actions.

Go from breach to containment faster with ShadowHQ

Why It's Better

LEGACY TOOLS	SHADOWHQ NOTIFY
Fragmented alerts	One-click, multi-channel deployment
In-band and exposed	Full out-of-band and attacker resistant
Standalone systems	Native to ShadowHQ's incident workspace
Manual call trees	Automated, dynamic escalation flows

Stay in Control When Attacks Hit

The moment attackers compromise your SSO and corporate systems, traditional coordination tools like Slack, email, and Teams become useless. ShadowHQ is built for this exact scenario.

- ✓ **Out-of-band** by design.
- ✓ **Secure response activation** in minutes.
- ✓ **SOC 2 Type II certified** for peace of mind

While others scramble to regain access, you're already coordinating, executing, and communicating—securely and confidently.

Go from breach to containment faster with ShadowHQ

EXPERIENCE SHADOWHQ

> ShadowHQ is a significant game-changer. Being able to rally the troops and respond in a coordinated fashion has a direct correlation on the speed and cost of recovery.
